

**UNITED STATES DISTRICT COURT
DISTRICT OF COLUMBIA**

ENVIRONMENTAL INTEGRITY
PROJECT
One Thomas Circle, Suite 900
Washington, D.C. 20005

Plaintiffs,

v.

EXECUTIVE OFFICE OF THE
PRESIDENT, OFFICE OF MANAGEMENT
AND BUDGET, Washington, D.C. 20503

Defendant.

No. _____

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

1. This action is premised upon violations of the Freedom of Information Act (“FOIA” or “Act”). 5 U.S.C. § 552. Defendant has failed to respond to Plaintiff’s FOIA request within the timeframe mandated by the statute and has not provided access to a telephone or internet service with FOIA status information as required by law.

2. On January 24, 2012, Plaintiff Environmental Integrity Project (“EIP”) submitted a FOIA request to Defendant Office of Management and Budget (“OMB”) for all records of meeting notes and phone conversations that occurred between OMB, the Environmental Protection Agency (“EPA”), and special interest groups during the Office of Information and Regulatory Affairs (“OIRA”) review of certain Clean Air Act rulemakings. Despite Plaintiff’s repeated status inquiries, Defendant has failed to provide the documents requested or otherwise

respond to Plaintiff's FOIA request within 30 days¹ as required by the Act. This request was submitted as part of Plaintiff's ongoing national campaign to address the pressing problems of air and water pollution and our national dependence on dirty, non-renewable energy sources such as oil and coal, and to promote the use of clean energy sources.

3. Plaintiff requests these files as part of its analysis of special interest influence on the EPA rulemaking process. An open and transparent rulemaking process is vital to ensuring that environmental regulations are protective of human health and the environment.

4. The OIRA review process mandated by Executive Order ("EO") 12,866 is intended to:

- "enhance planning and coordination with respect to both new and existing regulations;
- to reaffirm the primacy of Federal agencies in the regulatory decision-making process;
- to restore integrity and legitimacy of regulatory review and oversight; and
- to make the process more accessible and open to the public." 58 Fed. Reg. 51,735 (Oct. 4, 1993).

5. As part of the review process, OIRA must publicly disclose communications between OIRA personnel and special interest groups, as well as any changes made to rules during the review process. 58 Fed. Reg. at 51,742.

6. Studies have shown, however, that contrary to the principles identified in the Executive Order, the review process is used as a forum for regulated industries to ratchet down protective regulations after they have failed to convince experts within EPA to adopt their

¹ Agencies must to respond to FOIA requests within 20 working days. 5 U.S.C. § 552 (a)(6)(A)(i). In unusual circumstances, the agency may invoke a 10-day extension. 5 U.S.C. § 552 (a)(6)(B)(i). Therefore, 30 working days is the maximum amount of time an agency has, under the law, to respond to a FOIA request.

proposals. For example, one recent study analyzing trends in OIRA meetings over a ten year time period identified that the vast majority of rule reviews (73%) that involved meeting with outside parties encompassed participation only from industrial groups.² Defendant's failure to comply with Plaintiff's FOIA request further undermines the integrity and legitimacy of the OIRA review process.

7. OMB's disregard of its duty to release the documents requested has harmed, and will continue to harm, Plaintiff because the failure to timely disclose records related to meetings with special interest groups impairs Plaintiff's ability to ensure that EPA rulemakings are open and transparent and comply with the law, and that regulations promulgated by EPA protect public health and the environment. Thus, it is imperative that these documents be released quickly and efficiently.

8. Plaintiff files this complaint for declaratory and injunctive relief against OMB for OMB's failure to timely respond to Plaintiff's FOIA request as required by law.

JURISDICTION

9. This action arises under the citizen suit provision of the Freedom of Information Act. 5 U.S.C. § 552 (a)(4)(B).

10. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 1331.

11. This Court is a proper venue for all FOIA actions. 5 U.S.C. § 552(a)(4)(B); *In re Scott*, 709 F.2d 717, 720 (D.C. Cir. 1983).

12. FOIA provides that this Court may issue a declaratory judgment, provide injunctive relief, and grant other equitable relief as the Court may deem just and proper.

² Rena Steinzor, Michael Patoka & James Goodwin, *Behind Closed Doors at the White House: How Politics Trumps Protection of Public Health, Worker Safety and the Environment* (CPR White Paper No. 1111ES, Nov., 2011) available at http://www.progressivereform.org/articles/OIRA_Meetings_1111.pdf.

5 U.S.C. § 552(a)(4)(B); *Payne Enterprises, Inc. v. United States*, 837 F.2d 486, 494 (D.C. Cir. 1988) (“The FOIA imposes no limits on courts' equitable powers in enforcing its terms.”) (*citing Renegotiation Bd. v. Bannercraft Clothing Co., Inc.*, 415 U.S. 1, 20 (1974) (“With the express vesting of equitable jurisdiction in the district court by s 552(a), there is little to suggest, despite the Act's primary purpose, that Congress sought to limit the inherent powers of an equity court.”)).

13. This Court may award attorney fees and litigation costs pursuant to 5 U.S.C. § 552(a)(4)(E).

PARTIES

14. Plaintiff Environmental Integrity Project (“EIP”) is a nonpartisan, nonprofit organization founded in 2002 by former EPA enforcement attorneys to advocate for more effective enforcement of environmental laws. The Environmental Integrity Project’s three objectives are: to provide objective analysis of how the failure to enforce or implement environmental laws increases pollution and affects the public’s health; to hold federal and state agencies, as well as individual corporations, accountable for failing to enforce or comply with environmental laws; and to help local communities in key states obtain the protection of environmental laws.

15. Since 2002, EIP has focused on pollution generated by coal-fired power plants and other large sources of air and water pollution. As part of its efforts to ensure effective enforcement of environmental laws, EIP participates in permit proceedings for large sources of pollution, collects and analyzes pollution data, publishes reports, testifies before state and regulatory bodies, and participates in federal rulemakings pertaining to coal-fired power plants and other large sources of air and water pollution.

16. Defendant OMB is a government agency that is charged with “the implementation and enforcement . . . of Presidential policy government-wide.” Its chief responsibilities are: 1) budget development; 2) oversight of agency performance; 3) coordination of inter-agency review; 4) legislative clearance and coordination; and 5) review of presidential executive orders and memoranda.

LEGAL BACKGROUND

17. “In our democracy, the Freedom of Information Act (FOIA), which encourages accountability through transparency, is the most prominent expression of a profound national commitment to ensuring an open Government.” President Barack Obama, Memorandum for the Heads of Executive Departments and Agencies, 74 Fed. Reg. 4683 (Jan. 26, 2009). “Timely disclosure of information is an essential component of transparency.” Attorney General Eric Holder, Memorandum For Heads of Executive Departments and Agencies (Mar. 19, 2009).

18. Specifically, the Freedom of Information Act requires that an agency “shall determine within 20 [working] days . . . after the receipt of any [FOIA] request whether to comply with such request and shall immediately notify the person making such request of such determination and the reasons therefore” 5 U.S.C. § 552 (a)(6)(A)(i). In “unusual circumstances” the time limits may be extended by written notice which must include “the date on which a determination is expected to be dispatched.” 5 U.S.C. § 552 (a)(6)(B)(i). This date may not “specify a date that would result in an extension for more than ten working days” unless defendant invokes a narrow exception, wherein the agency reasonably asks the requester to narrow the scope of their inquiry. *Id.* Thus, the statute mandates that an agency shall respond with a determination no more than 30 working days of receiving a FOIA request.

19. In addition, FOIA requires agencies to “establish a telephone line or Internet service that provides information about the status of a request to the person making the request using the assigned tracking number, including—(i) the date on which the agency originally received the request; and (ii) an estimated date on which the agency will complete action on the request.” 5 U.S.C. § 552(a)(7)(B).

20. The Freedom of Information Act provides that “[a]ny person making a request to any agency for records under paragraph (1), (2), or (3) of this subsection shall be deemed to have exhausted his administrative remedies with respect to such request if the agency fails to comply with the applicable time limit provisions” 5 U.S.C. § 552 (6)(C)(i).

FACTUAL BACKGROUND

21. A significant component of Plaintiff’s mission is to hold federal agencies accountable for compliance with environmental laws and provide objective analysis of how the failure to comply with environmental laws increases pollution and affects the public’s health. Pursuant to this mission, Plaintiff collaborates with local, state, regional, and national stakeholder groups to provide legal and technical comments on EPA rulemakings and the need for regulation where existing rules are inadequate.

22. By certified letter posted January 23, 2012 and email, Plaintiff submitted a request for documents pursuant to the Freedom of Information Act. 5 U.S.C. § 552; Exh. A.

23. Specifically, Plaintiff’s FOIA request to OMB requested summaries of meetings, memoranda or notes for all meetings or telephone conversations that took place between EPA, OMB and special interest groups or outside parties during the regulatory review conducted pursuant to EO 12,866 of the following rules:

- National Emission Standards for Hazardous Air Pollutants From Coal- and Oil-Fired Electric Utility Steam Generating Units and Standards of Performance for Fossil-Fuel-Fired Electric Utility, Industrial-Commercial-Institutional, and Small Industrial-Commercial-Institutional Steam Generating Units [EPA-HQ-OAR-2009-0234, EPA-HQ-OAR-2011-0044] (“EGU Rule”)
- National Ambient Air Quality Standards for Ozone [EPA-HQ-OAR-2005-0172] (“Ozone Rule”)
- National Emission Standards for Hazardous Air Pollutants for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters [EPA-HQ-OAR-2002-0058] (“Boiler Rule”)
- Cross-State Air Pollution Rule [EPA-HQ-OAR-2009-0491] (“Cross-State Rule”)

24. Based on information provided online at www.regulations.gov and the OMB’s online record of meetings, there is evidence that at least 28 meetings occurred between EPA, OMB and special interest groups during the EO 12,866 review of the EGU Rule and that at least 11, 14, and 16 such meetings occurred during the review of the Ozone, Boiler and Cross-State Rules, respectively.

25. In a written letter dated January 24, 2012, Defendant acknowledged that it received Plaintiff’s FOIA request on that date. Exh. B. Also in this letter, Defendant assigned Plaintiff’s request the OMB FOIA identification number 12-067. *Id.* The Defendant did not identify a specific date on which it would respond or request that the Plaintiff narrow the scope of its request. *Id.*

26. On February 16, 2012, Plaintiff left a voicemail message requesting a response determination on the FOIA request at the contact number identified in the January 24 letter and on OMB's FOIA website. This call was never returned.

27. In a written letter dated February 22, 2012, Defendant informed Plaintiff that an extension of "up to 10 working days" would be necessary to process Plaintiff's request. Exh. C. Defendant explained that this extension was caused by the "need for consultation with other components within OMB." *Id.* The Defendant did not identify a date by which it would respond or request that the Plaintiff narrow the scope of its request. *Id.*

28. By certified letter posted March 21, 2012 and email, Plaintiff notified Defendant that a response was overdue by more than two weeks past the deadline imposed by statute and requested a response determination immediately. The return receipt indicated that Dionne Hardy, OMB FOIA officer, received this letter on March 28, 2012. Exh. D.

29. On March 23, 2012, Plaintiff left a second voicemail message requesting a response determination at the contact number identified in the January 24 letter and on OMB's FOIA. This call was never returned.

30. As of the date of this complaint, more than 30 working days have elapsed since the date Defendant acknowledged that it received Plaintiff's FOIA request.

31. As of the date of this filing, Plaintiff has received no response to the FOIA request except for the letter stating that an additional 10 days to process the request was required. OMB did not state it was invoking any exception and did not ask Plaintiff to narrow its FOIA request.

32. In addition, OMB has failed to: respond to the repeated status inquiries made by Plaintiff via telephone and email; provide access to a telephone line or website with the status of Plaintiff's request; or provide an estimate of when Plaintiff can expect a response determination

and the documents requested. OMB has not provided access to a telephone or internet service with information on the status of Plaintiff's FOIA request. For all these reasons, OMB is in violation of the FOIA.

CAUSES OF ACTION

33. Plaintiff realleges and incorporates paragraphs 1 through 32.

34. Count 1: Plaintiff has a statutory right to have OMB process their FOIA request within the timeframes mandated by the Act.

35. Defendant's failure to timely respond to Plaintiff's FOIA request is a violation of the FOIA requirement that an agency "shall determine within 20 [working] days . . . after the receipt of any [FOIA] request whether to comply with such request and shall immediately notify the person making such request of such determination and the reasons therefore" 5 U.S.C. § 552 (a)(6)(A)(i).

36. Count 2: Defendant is required by law to provide an estimated date of response when invoking a 10 day extension to the statutory deadline to respond to FOIA requests.

37. Defendant invoked a 10 day extension due to "unusual circumstances," but has failed to provide an estimated date of response to Plaintiff.

38. Defendant's failure to provide an estimated date of response is a violation of the Freedom of Information Act's requirement that an agency invoking an extension must provide in a notice letter "the date on which a determination is expected to be dispatched." 5 U.S.C. § 552 (a)(6)(B)(i).

39. Count 3: Defendant is required by law to maintain a phone or internet service that provides Plaintiff with information regarding the status of their FOIA request, but Defendant has

provided no such service here. In fact, Defendant has refused to respond to Plaintiff's repeated telephone calls, letters, and emails.

40. Defendant's failure to maintain a phone or internet service that provides requestors with information regarding the status of their requests is a violation of the Freedom of Information Act's requirement that agencies shall "establish a telephone line or Internet service that provides information about the status of a request to the person making the request using the assigned tracking number, including—(i) the date on which the agency originally received the request; and (ii) an estimated date on which the agency will complete action on the request." 5 U.S.C. § 552(a)(7)(B).

41. Because more than 30 days have passed since Plaintiff filed their FOIA request and Defendant has not yet responded, this case is ripe for adjudication.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs respectfully request that this Court:

42. Declare Defendant's failure to timely respond to Plaintiff's FOIA request to be unlawful under the FOIA, 5 U.S.C. § 552 (a)(6)(A)-(B).

43. Declare that Defendant's failure to provide an estimated response date and access to a telephone line or internet service that provides status information for Plaintiff's FOIA request to be unlawful under the FOIA, 5 U.S.C. § 552(a)(7)(B).

44. Order Defendant OMB to immediately provide Plaintiff with all of the documents identified in Plaintiff's FOIA request.

45. Order Defendant OMB to establish a telephone line or internet service that provides information about the status of a request to the person making the request as required by law.

46. Award Plaintiff their costs of this action, including reasonable attorney fees pursuant to 5 U.S.C. § 552(a)(4)(E).

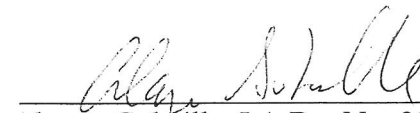

47. Retain jurisdiction to ensure compliance with its decree.

48. Grant such other relief as the Court deems just and proper.

DATED: May 8, 2012

Subject: FOIA Request: Summaries of Meetings and Telephone Communications During EO 12866 Review
Attachments: Attch A. EPA 12866 Meetings Screen Print.pdf; Attachment B. List of Telephone Communications.pdf

Dear Ms. Hardy:

This is a request for information pursuant to the Freedom of Information Act, 5 U.S.C. § 552, *et. seq.* In order to help to determine my status to assess fees, you should know that I am making this request on behalf of Environmental Integrity Project, a public interest group. This request is not for commercial use. Please notify me if the fees will exceed \$25.00.

Records Requested

1. *Summaries of EO 12866 Meetings Between OMB, EPA, and Interest Groups*

We are requesting copies of meeting summaries, memoranda or notes for all meetings that have taken place between EPA, OMB and special interest groups or outside parties during the regulatory review conducted pursuant to Executive Order 12,866 review of the following rules:

- National Emission Standards for Hazardous Air Pollutants From Coal- and Oil-Fired Electric Utility Steam Generating Units and Standards of Performance for Fossil-Fuel-Fired Electric Utility, Industrial-Commercial-Institutional, and Small Industrial-Commercial-Institutional Steam Generating Units [EPA-HQ-OAR-2009-0234, EPA-HQ-OAR-2011-0044] (“EGU Rule”)
- National Ambient Air Quality Standards for Ozone [EPA-HQ-OAR-2005-0172] (“Ozone Rule”)
- National Emission Standards for Hazardous Air Pollutants for Major Sources: Industrial, Commercial, and Institutional Boilers and Process Heaters [EPA-HQ-OAR-2002-0058] (“Boiler Rule”)
- Cross-State Air Pollution Rule [EPA-HQ-OAR-2009-0491] (“Cross-State Rule”)

EPA policy directs that summaries of such meetings are included in the rulemaking docket. OFFICE OF ENVIRONMENTAL INFORMATION, EPA, CIO 2100.0, 2100B8, CH. 14 EPA RULEMAKING DOCKET POLICY § 3(k)(7) (2001) (“Written summaries of communications between EPA staff and OMB [Office of Management and Budget] or other persons outside EPA regarding significant new factual data or information affecting a rulemaking (*including meetings with interest groups*)”) (emphasis added).

Relying on information provided at regulations.gov and the OMB’s online record of meetings, we believe that at least 28 meetings occurred between EPA, OMB and special groups during the EO 12,866 review of the EGU Rule and that at least 11, 14, and 16 such meetings occurred during the review of the Ozone, Boiler and Cross-State Rules, respectively (see Attachment A for a screen print of OMB’s online record of meetings). We are also requesting meeting summaries for any additional meetings that occurred during the regulatory review of any of the identified rules, but not identified in the attachment.

If meeting summaries are currently available in online dockets available at regulations.gov, we request that OMB provide docket identification numbers, in lieu of electronic or paper copies.

We are aware that records documenting the attendance of these meetings, as well as copies of the materials presented are often available on the OMB’s website or at regulations.gov. We are not requesting copies of these documents. Rather, we are only requesting summaries of the communications that occurred during these meetings.

It is vital that meeting summaries be available to the public to ensure that the regulatory process is based on “the open exchange of information and perspectives.” Improving Regulation and Regulatory Review, Exec. Order 13,563 (2)(a), 76 Fed. Reg. 3,821 (Jan. 21, 2011). OIRA Administrator Cass Sunstein advised that such an “open exchange” should “increase participation in the regulatory process by allowing interested parties the opportunity to react to (and benefit from) the comments, arguments, and information of others provided during the rulemaking process itself.” CASS SUNSTEIN, OFFICE OF INFORMATION AND REGULATORY AFFAIRS, EXECUTIVE OFFICE OF THE PRESIDENT, M-11-28, MEMORANDUM FOR THE HEADS OF REGULATORY AGENCIES (Jul. 22, 2011). Records of discussions intended to influence the rule-making process must be made available to the public to fulfill this mission.

2. Records of Telephone Conversations Between OMB and Interest Groups

We are requesting copies of summaries or notes for all telephone communications that have taken place between OMB and special interest groups or outside parties during the regulatory review of the EGU, Ozone, Boiler and Cross-State rules.

Executive Order 12,866 requires that OMB maintain a public log containing, “at a minimum . . . [t]he dates and names of individuals involved in all substantive oral communications, including meetings *and telephone conversations*, between OIRA personnel and any person not employed by the executive branch of the Federal Government, and the subject matter discussed during such communications.” 58 Fed. Reg. at 51743 (emphasis added).

Relying on information provided at regulations.gov and the OMB’s online record of meetings, we could find no records of telephone conversations that occurred between OMB and outside groups for any air or radiation rule promulgated by the EPA after 2002 (see Attachment B).

If summaries of telephone conversations are currently available in online dockets available at regulations.gov, we request that OMB provide docket identification numbers, in lieu of electronic or paper copies.

Claims of Exemption from Disclosure

If you regard any documents as exempt from required disclosure under the Freedom of Information Act, please exercise your discretion to disclose them nevertheless, keeping in mind that FOIA “is the most prominent expression of a profound national commitment to ensuring an open Government” and that “[a]ll agencies should adopt a presumption in favor of disclosure.” Memorandum For the Heads of Executive Departments and Agencies: Freedom of Information Act, 74 Fed. Reg. 4,683 (Jan. 26, 2009).

In the alternative, after careful review for the purpose of determining whether any of the information is exempt from disclosure, please provide all reasonably non-exempt portions of records and communications. FOIA requires the release of all reasonably segregable portions of records.

Should you elect to invoke an exemption, please provide the required full or partial denial letter and sufficient information to appeal the denial. In accordance with the minimum requirements and regulations of due process, this information should include:

1. Basic factual material, including the originator, date, length, and addresses of the withheld items.
2. Explanations and justifications for denial, including the identification of the exemption applicable to the withheld information or portions of the information found to be subject to exemption, and how each exemption applies to the withheld material.

Thank you for your prompt attention to this matter. Should you need further information concerning this request, please do not hesitate to contact me. I look forward to your timely response. A hard copy of this communication will also be sent to your office.

Sincerely,

Alayne Gobeille
Legal Fellow

Attachment B. Screen Print of Summary of Oral Communications Between OIRA and Outside Agencies on EPA Air and Radiation Rules.

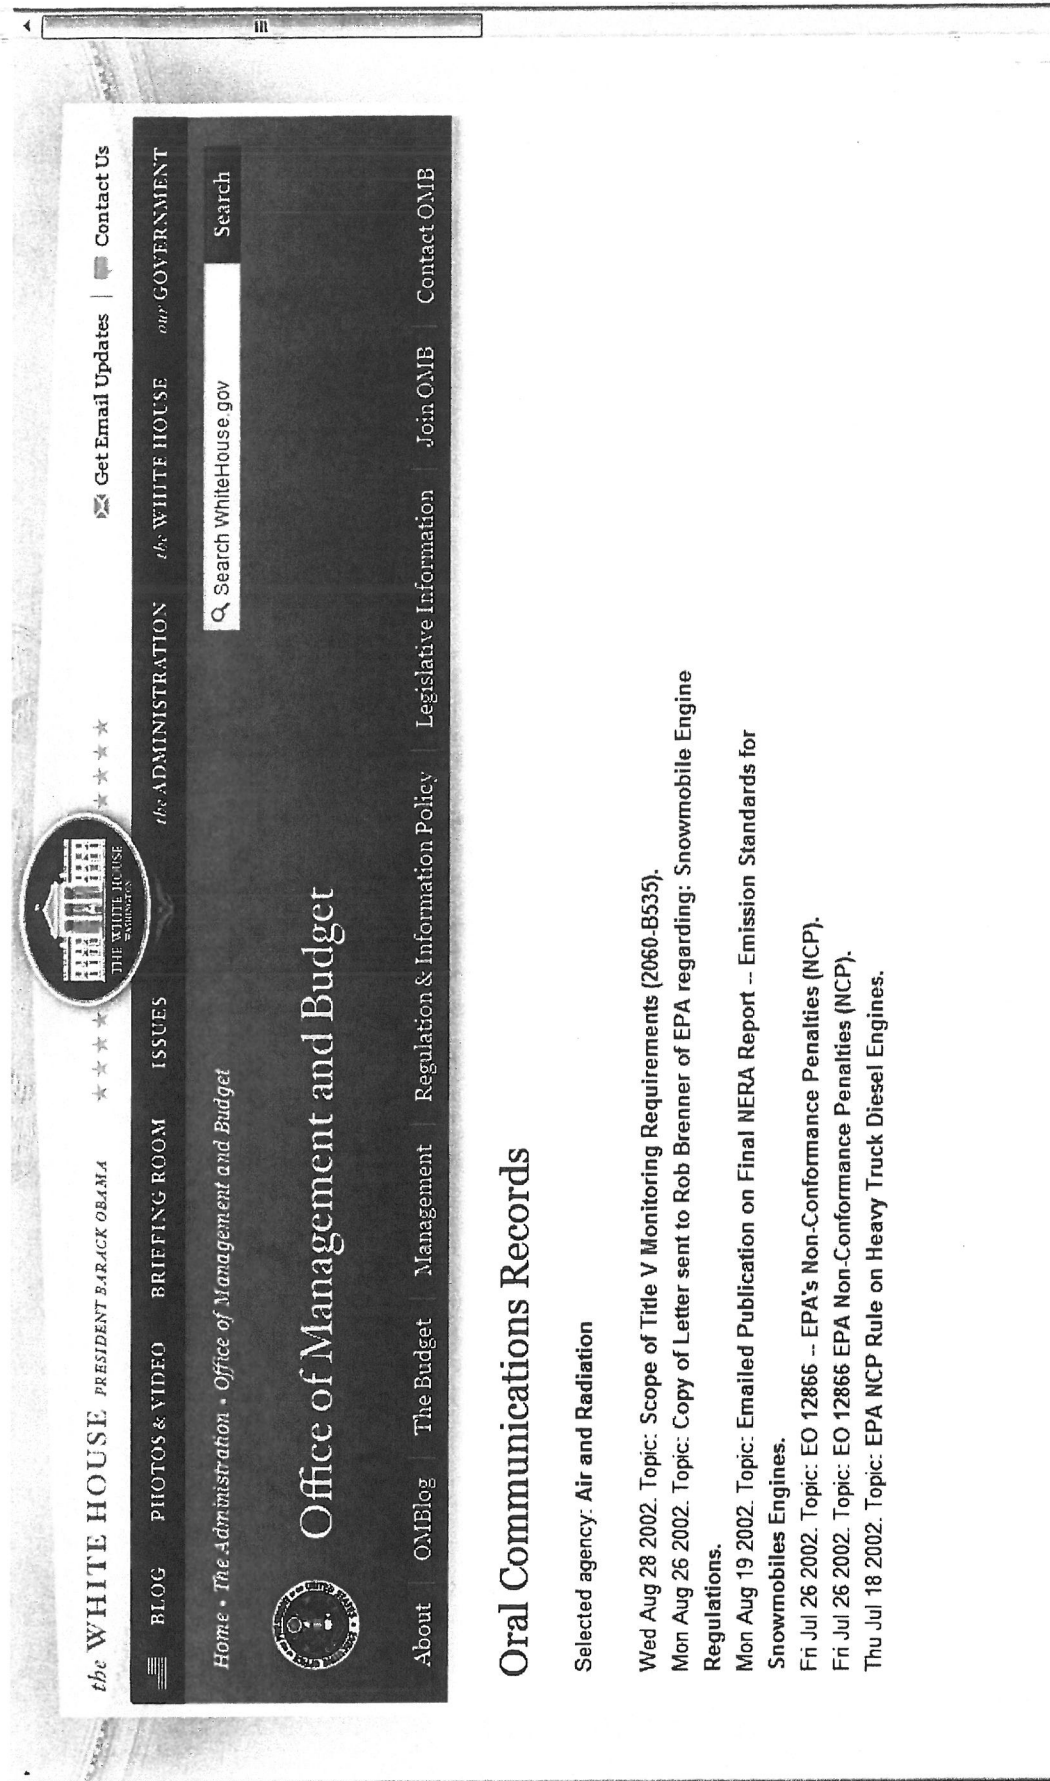

EXHIBIT B

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

January 24, 2012

Alayne Gobeille
Legal Fellow
Environmental Integrity Project
One Thomas Circle
Suite 900
Washington, DC 20005

Dear Alayne Gobeille:

This letter acknowledges receipt of your Freedom of Information Act (FOIA) request to the Office of Management and Budget (OMB) dated January 23, 2012, which was received in OMB's FOIA office on January 24, 2012. Your request has been logged in and is being processed. For your reference, the OMB FOIA number is 12-067.

If you have any questions, please feel free to contact me at 202-395-3642.

Sincerely,

Dionne Hardy
FOIA Officer

EXHIBIT C

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

February 22, 2012

Alayne Gobeille
Legal Fellow
Environmental Integrity Project
One Thomas Circle
Suite 900
Washington, DC 20005

Dear Alayne Gobeille:

Due to unusual circumstances, an extension of up to 10 working days will be necessary to process your Freedom of Information Act (FOIA) request to the Office of Management and Budget (OMB), which was received in this office on January 24, 2012. This additional time is required because, in order to respond to your request, there is a need for consultation with other components within OMB regarding documents responsive to your request. The authority for this extension can be found in 5 U.S.C. 552(a)(6)(B).

Sincerely,

A handwritten signature in black ink, appearing to read "Dionne Hardy".

Dionne Hardy
FOIA Officer

RE: OMB FOIA 12-067

Dear Ms. Hardy:

I am writing to inquire about the status of my FOIA request 12-067. In light of the ten-day extension invoked by your office, a response was due more than two weeks ago. Please contact me immediately to discuss or provide a response. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alayne Gobeille', written in a cursive style.
